Why should you attend?

LaTeX has become the de facto standard for preparing and exchanging documents in the academic world; particularly in mathematics, science, and engineering.

Come learn what LaTeX is and what it can do for you. We will be producing and formatting a LaTeX document step by step. If possible, get it preinstalled on your systems to benefit yourself with a hands-on experience.

Our Speaker

Dr. Matadeen Bansal

Assistant Professor

Dept. of ECE

Indian Institute of information technology
Design and Manufacturing, Jabalpur
