

IEEE Student Branch of Cagliari

Short Overview

What is the IEEE Student Branch?

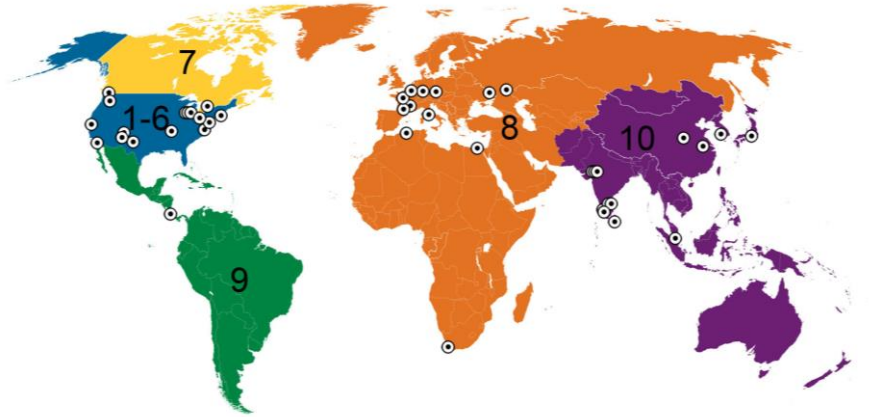

The Institute of Electrical and Electronics Engineers (IEEE) is the world's largest technical professional organization dedicated to advancing technology for the benefit of humanity.

IEEE has Student Branches at thousands of universities and colleges in hundreds of countries worldwide. Our group is the Student Branch of the University of Cagliari, a section run by student with the help of some more experienced researchers.

We usually organize seminars or workshops that are useful for various reasons:

- ▶ We share our research.
- ▶ We help undergraduate students to understand better which topics they like.
- ▶ We can teach how to organize and advertise events.
